

- Team visited the Plum Grove Volunteer Fire Station and spoke with Cody Goraum (Lieutenant). Fire station received approximately 3 feet of flood water. Evacuated to the 1st Baptist Church and then had to be re-evacuated again to another location. Team will send EPA Fact Sheets to PlumgroveVFD8705@gmail.com
- Team drive around Plum Grove where clear signs of flooding and debris was seen. This was the second time the team has seen and documented the evidence of flooding and debris in this city.
- Team visited Rye (unincorporated community) but did not see signs of flooding.
- Team visited Horseshoe Lake Estates -Romayor where evidence of flooding and debris was seen. Horseshoe Lake Estates is a very rural community with not many homes. Team did not see any potential contact source while driving around in the community.
- Team visited The Retreat at Artesian Lakes and visited the Hospitality House. Spoke to information receptionist who said they housed 17 displaced residents but could only house them based on the amount of funds provided by FEMA. Two homes were completely destroyed.
